17 month old dark B/W that I have admired for some time. Feminine head that is clean and with good balance, lovely dark eyes and inquisitive expression. Impressive shape that is square with a long, crested neck, nicely angulated front and a firm topline with spot on tailset. Super quarters, just the right amount of angulation and well muscled. Standing on the tightest of feet and with super bone. Moved very well. Was a little un co-operative in the final challenge which cost her but a beautiful bitch that I really liked. Best Special Junior Bitch.
